Rom Shemer

Step into Emotion - Unlock, Experience, Grow

Too many games entertain – but don't help us understand what we feel

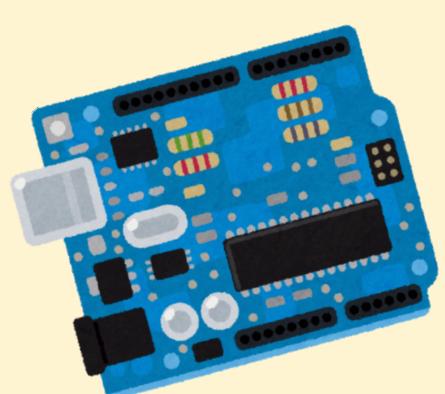

Fully immersive VR escape rooms that blend real-world objects with emotion-based challenges, turning feelings into interactive, gamified experiences

Unlocking Feelings invites you on a personal VR journey to explore your emotions, face challenges, and grow from the inside out

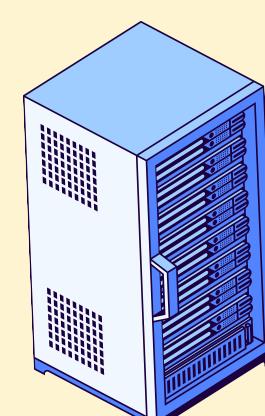

SENSOR

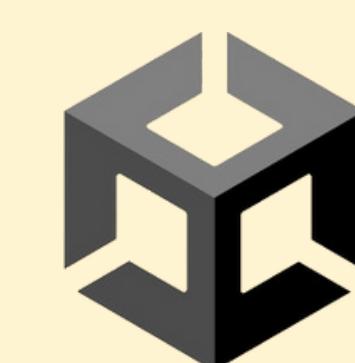

Custom C# server connects Arduino and Unity

SERVER

Listens via Serial port to receive sensor data

UNITY

Ensures smooth synchronization between physical sensor and VR interaction
